Weston's Cornhole for Chromosome 18 Tournament

Spring, TX - February 1, 2026

Join us as a sponsor for a fun afternoon cornhole tournament while raising awareness and money for Weston and Chromosome 18! Our organization's mission is to defeat the challenges of those born with chromosome 18 conditions so they can lead healthy and productive lives.

We are proud to be the primary funder of the Chromosome 18 Clinical Research Center at UT San Antonio, the only institution in the world dedicated to the study of rare chromosome 18 conditions for 35 years. The more funds we raise, the faster the research center can develop treatments to improve the lives of the special-needs children, adults, and their families affected by chromosome 18 conditions. We also offer support and guidance for families & physicians through cutting-edge research discoveries and treatment recommendations, as well connect families with new diagnoses to our supportive community of affected families around the world.

For more information about our organization, visit our website:
www.chromosome18.org
